

Typeset conformance *flow fixture*

This justified paragraph flows across several lines so the interior lines stretch their inter word spaces to reach the right edge of the measured column exactly as required

marked ~~struck~~ plain

- 1. first list item body
- 2. second list item body

hanging indent paragraph whose first line starts at the margin while every following wrapped line is indented under it

exact twenty point line spacing paragraph wrapped over enough words to produce several evenly spaced lines here

header A	header B	header C
alpha	beta gamma delta	epsilon

Second page continues the flow fixture

centered paragraph on page two

right aligned paragraph on page two
